- C. Pledge of Allegiance**
- D. Public Hearing Item(s):**
  - D. 1. Zoning Item(s)**
    - 1. Application RZ2025-001:**  
Bradley Anderson applied on August 29, 2025, requesting a Rezone from the current R-1 zoning to C-2 zoning for parcel #806 000100 000. The purpose of this rezone request is to install a three-bay garage with chain-link fencing

around the entire lot. This property is located at 16862 Hwy 80 East, Brooklet, GA 30415.

The applicant, Brad Anderson, addressed the Council to provide a synopsis of the proposed relocation of their used car lot. The applicant explained that the current property, owned since 1999, has a long history of varied commercial uses, including restaurants, used-car sales, lawn mower repair, antique shops, a flower shop, a print-and-sign shop, and a therapeutic massage business.

Mr. Anderson stated the intent to relocate the existing car lot to an area better suited to similar light-commercial and automotive-related businesses. The presentation included an overview of the surrounding properties at both the current site and the proposed location. At the current site, nearby uses include a credit union and other businesses that are less vehicle-focused. In contrast, the proposed location is near multiple C-2 zoned automotive businesses, including Cason's Automotive, Fales Paint and Body, and the city fire station. Other nearby C-2 uses, such as convenience stores, a tire shop, and a Dollar General, were also noted.

Mr. Anderson presented photographs and distance measurements demonstrating that the proposed site is located within tenths of a mile of several C-2 classified businesses. The applicant further described the intended site layout, noting plans for a fenced-in area and a hedge border (Ellie Agnes/Silverberry) as recommended by the Planning & Zoning Commission.

Mr. Anderson stated that the proposed relocation aligns with the city's Comprehensive Plan, specifically the 2045 Urban Corridor designation, which supports C-2 zoning and commercial use along the corridor.

**G. Public Participation- Persons Wishing to Address Council**

The City of Brooklet encourages civility in public disclosure and requests that speakers direct their comments to the Chair. Those attendees wishing to share a document and or comments in writing for inclusion into the public record must email the item to lori.phillips@brookletga.us no later than noon on the day of the meeting.*

**1. Stephen Anderson and Selena Anderson**, two Brooklet residents, addressed the council regarding the proposed 728-house development. They urged the council to consider responsible growth and the community's capacity, especially concerning schools, roads, and services. They noted they moved to Brooklet specifically for the schools and expressed concern, especially since the proposed development could double Brooklet's population (currently about 2,200 people).

The mayor responded that the council has agreed to limit the development to a maximum of 100 sewer taps per year to slow the project. He noted that the school board is planning a significant investment in a new school.

**2. Bill Powell with Georgia Rural Water Association** – Water/ Sewer Bonds, Water Rate Study, and Potential Ordinance Revisions related to Tap Fees & Contractor Quotes.

**Bill Powell** with the Georgia Rural Water Association. He presented a water rate study based on the city's 2026 operating budget. Powell excluded most sewer costs as the major sewer project (gravity sewer, connections) has not begun. However, the city has secured a \$7,115,000 municipal bond and a \$3 million GE grant for the system. Powell cited that the water operating budget is \$503,754. The study offered two options:

- Without Transfer: Annual operating needs are \$514,854, requiring water-only customers to see a rate increase from 31% to 61% to cover operations and reserves.

- With Transfer: Including a \$140,000 "public right-of-way usage fee" transfer (used to pay into the General Fund), the operating budget jumps to \$648,754. This transfer forces water rates to nearly double for many customers, resulting in increases up to 105%.

Mayor pro-Tem Keith Roughton stated that they had no current intention of raising water rates. They are financially in good shape and operate within the budget at current rates.

- 2. Discussion and consideration of a motion to approve a quote for repairs to the 2023 Dodge Durango Pursuit AWD.**

The Police Department received three estimates for repairing the 2023 Dodge Durango Pursuit AWD, which was damaged in a collision with a deer. The insurance adjuster provided a minimal estimate of \$449.45, which does not include the cost of a required replacement push bar. Two complete repair estimates were obtained from local shops: Franklin Collision Center at \$2,387.95 and Preferred Collision Center at \$2,053.45. Both shop estimates include bumper and grille component replacements, wheel flare work, pre- and post-repair scans, and complete installation of a new push bar. Council consideration is needed to select a repair vendor and authorize the total repair cost, which exceeds the adjuster's valuation.

The council discussed the quotes above. The insurance adjuster offered a minimal estimate of \$449.45 (which excluded the cost of a required replacement push bar). Local shops provided complete estimates ranging from \$2,053.45 to \$2,387.95.

**A motion was made to approve the lowest shop bid (\$2,053.45 from Preferred Collision Center) contingent upon staff communicating further with the insurance company about the cost disparity.**

The Planning and Zoning Commission recommends approval of the sketch plan, with modifications. The property was already rezoned for residential use.

Approval of the sketch plan allows the developer to submit construction plans and a traffic study. The development is limited to a maximum of 100 sewer connections per year, ensuring the project cannot be built out in less than 8 years. The developer plans to extend water and sewer to the site and pay 100% of the connection fees, which is expected to help spread out the city's water and sewer costs.
